

REMARKS

This responds to the Ex Parte Quayle Action dated on April 10, 2007.

No claims are amended, no claims are canceled, and no claims are added; as a result, claims 1-45 are now pending in this application in which claims 1-19 were examined and determined to be allowable. The amendments to the Figure 4 and the specification are fully supported by the specification as originally filed. No new matter is introduced. Applicant respectfully requests reconsideration of the above-identified application in view of the amendments above and the remarks that follow.

Withdrawn Claims

In the Restriction Requirement mailed 29 September 2005, original claims 1-6 was acknowledged as generic to all original species. Withdrawn independent claims 20, 26, 32, and 38 were amended such that claims 1-6 remain generic to withdrawn claims 20-45. With the allowance of claim 1, Applicant respectfully requests the rejoinder and allowance of claims 20-45. *See M.P.E.P. 809 and 821.04.*

The drawings were objected to under 37 C.F.R. 1.83(a).

Applicant requests withdrawal of the objections to the drawings and allowance of the instant application.
